

Contact Information

Address: Department of Epidemiology, School of Public Health and Safety, Shahid Beheshti University of Medical Sciences, Tehran, Iran, Post code: 198396-3113
Email: saeedh_1999@yahoo.com

Education

- PhD in Epidemiology, Tehran University of Medical Sciences, School of Public Health, Department of Epidemiology and Biostatistics, Jan 2007 - Jan 2012
 - ❖ Dissertation: "The Association of segregation indices and health outcomes"
 - ❖ Advisor: Professor K Holakouie Naieni
 - ❖ Grade: A - Excellent
 - MPH in Public Health, Tehran University of Medical Sciences, School of Public Health, Department of Epidemiology and Biostatistics, Aug 2006 - Sep 2007
 - ❖ Advisor: Professor A. Fotouhi
 - ❖ Grade: A
 - Doctrine Degree in Medicine (M.D), Tehran University of Medical Sciences, School of Medicine, Oct 1994 - Oct 2001
 - ❖ Ranked 40 among all the candidates in the entrance exam (more than 1 million participants)
 - ❖ Grade: A
-

Honors and Awards

- Ranked Among the World's Top 2% Scientists (2022–2025)
Recognized by Elsevier and Stanford University's Global Ranking of Top 2% Scientists
 - Main Field: Clinical Medicine
 - Subfield: General and Internal Medicine
 - Global Rank (Subfield): 443 out of 343,741 authors
 - Years Listed: 2022, 2023, 2025
 - Data verified and sourced from Elsevier and Stanford University databases
 - Research Impact Recognition
 - Scopus H-index: 26
 - Reflecting sustained and influential contributions to the field of clinical and epidemiological research
-

Work Experience

1. **Vice Chancellor for Health**, Shahid Beheshti University of Medical Sciences, Tehran, Iran, 2025 - Present

Responsibilities:

- Leading and overseeing university-wide public health initiatives and strategies for more than 6 million population in Theran Province
- Coordinating health-related academic and research programs
- Supervising health service delivery units and policy development
- Representing the university in national health forums and governmental committees
- Enhancing partnerships with health organizations for improved public service outcomes

2. **Head, National Center for Medical Education Assessment**, Ministry of Health and Medical Education, Iran, June 2020 - January 2022, 2024- Augst 2025

Responsibilities:

- Designing and administering national medical examinations (entrance, promotion, and licensing)
- Overseeing academic quality assurance in medical education
- Leading national initiatives to evaluate and improve educational outcomes in health sciences
- Collaborating with universities to standardize assessment tools and benchmarks
- Advising the Ministry on education strategy and competency-based evaluations

- 3- **Director, Department of Epidemiology**, Shahid Beheshti University of Medical Sciences, 2017-2019, 2021 - Present

Responsibilities:

- Maintaining academic quality and departmental vitality
- Oversight of faculty, staff, and physical facilities
- Coordination of the department's course offerings
- Involvement of faculty and stakeholders in decision-making
- Attraction and retention of distinguished faculty, staff, and students
- Support and development of the department's vision and mission
- Mentoring and guidance of faculty and students
- Teaching responsibilities as needed
- Advocacy and support for the university through extracurricular activities

- 4- **Consultant of General Director for NCD, Deputy of Health** - Ministry of Health and Education in the field of cancer, 2022 – Present

Responsibilities:

- Cleaning and analyzing of Population Based Cancer Data
- Preparing the county annual cancer report

5- Deputy Secretary, National Board of Epidemiology, 2020 - Present

Responsibilities:

- Setting and monitoring university admissions and policies at the national level
- Oversight of academic policies and quality assurance processes
- Designing national entrance exams for MSc and PhD levels
- External evaluation of Epidemiology departments across the country

6- Head, Epidemiology Committee of Covid Control, Shahid Beheshti University of Medical Science

Responsibilities:

- Leading the design and implementation of epidemiological surveillance and response strategies for COVID-19.
- Coordinating data collection, analysis, and reporting to inform university and national health policies.
- Advising university leadership and health authorities on outbreak trends and mitigation measures.
- Collaborating with local and national stakeholders to ensure effective public health interventions and academic contributions.

7- Head, RCT Center, Shahid Beheshti University of Medical Sciences, May 2021 - Present

Responsibilities:

- Expert counseling to clinicians for designing and implementing RCTs
- Implementation and oversight of RCTs in the University and its hospitals
- Member of Data monitoring and safety committee (DMSA) of national vaccine programs
- Design and presentation of good clinical practice (GCP) workshops
- Quality control of ongoing RCTs
- Collaboration with clinical project managers on budget and project outlines

8- Professor of Epidemiology, Department of Epidemiology, School of Public Health and Safety, Shahid Beheshti University of Medical Sciences, July 2013 – Present

Responsibilities:

- Research and teaching in various epidemiological topics
- Mentoring and supervision of graduate and post-graduate students
- Curriculum development and course management
- Experience with international students

9- Member, Research Council of Prevention of Cardiovascular Disease Research Center, Shahid Beheshti University of Medical Sciences, Sep 2019 - Present

Responsibilities:

- Conducting research into cardiovascular diseases

- Writing research papers and reports
- Development of research proposals and plans
- Collaboration with the leadership team for strategic decisions

10- Member, Research Council of Climate Change Research Center, Shahid Beheshti University of Medical Sciences

11- Member, Research Council of Safety Promotion and Injury Prevention Research Center, Shahid Beheshti University of Medical Sciences, 2013 - Present

Responsibilities:

- Conducting research on safety promotion and injury prevention
- Writing research papers and reports on various topics
- Developing research proposals and plans
- Collaboration with the leadership team for strategic decisions

12- Member, Research Council – Academic Center for Education, Culture and Research (ACECR), Tehran University of Medical Sciences, 2022 - present

Previous Work Experience

1. Member, Research Council – Academic Center for Education, Culture and Research (ACECR), *Tehran University of Medical Sciences*
2. Deputy Director of Treatment – Red Crescent Medical and Pharmaceutical Complex *Iranian Red Crescent Society,*
3. Director of Medical Tourism – Red Crescent Medical and Pharmaceutical Complex *Iranian Red Crescent Society,*
4. Member, Research Council – Legal Medicine Research Center, *Legal Medicine Organization of Iran*
5. Member, Research Center – Legal Medicine Organization of Iran
6. Collaborator – World Health Organization (WHO), Research Projects
7. Head of Training Unit – Municipal Health Center, *Tehran Municipality*
8. Deputy Head – Municipal Health Center, *Tehran Municipality*

Research Skills and Qualifications

1. Extensive knowledge of SPSS, Stata, R and Python statistical software
2. Familiarity with SAS software
3. Expertise in Multilevel Modeling
4. Expertise in survey analysis
5. Expert in the design and methodology of Research projects
6. Expert in the design and analysis of RCT projects

7. Expert in the design and development of prediction models, Artificial Neural Network, Convolutional Neural Networks and Machine Learning with pythons
 8. Working with Big data
 9. Data Analyst
 10. Advanced knowledge of Microsoft Office, ICDL Skills
 11. Experienced in using graphical software like Photoshop
 12. Fluent in English, with FCE (First Certificate in English) from Cambridge University, IELTS Exam Score: 7 (2006), and MCHE exam Score: 81 (2005)
 13. Familiarity with German and French languages
 14. Certificate of Prevention of sexual exploitation and abuse (PSEA) by UNICEF
 15. Certificate of ethics at UNAIDS
 16. Certificate of Completion of Modular Course in Electronics Teacher Training, aimed at empowering faculty members of medical universities in the country, for a duration of 6 months
 17. Certificate of Completion of the Modular Fellowship Program in Measurement and Evaluation in Medical Sciences, aimed at empowering faculty members.
 18. Specialized Hospital Management Course for a duration of 250 hours
 19. Current H Index: 26
-

Teaching Experience

- Instructor of PhD., MSc. BSc., and MPH Students of Epidemiology and other majors, Shahid Beheshti University of Medical Sciences, School of Public Health, 2002 - Present
 - Instructor of PhD., BSc. MSc., International Students of Epidemiology, and other majors, Shahid Beheshti University of Medical Sciences, School of Public Health, 2017 - Present
 - Teaching various workshops and courses on research and methodology
 - Collaboration with Health Economics and Financing Research Group at the University of Sharjah (UOS), UAE since 2021 and conducting two extensive courses on systematic reviews and meta-analysis
-

Publications Books

1. "Public Playground Safety & Health," Sadra Publication Center, 2003 (Persian Language)
 2. "Infectious Waste (Hospital Waste) Management," 2004 (Persian Language)
 3. "Scientific Authority in Various University of Medical Sciences," 2021
 4. "Daily Reports on Corona Virus Disease (COVID-19)," 2021
-

Dissertation and Research projects- PI or Co-worker

	Project Title	Year
1.	Assess vaccine wastage rates for Rotavirus and Pneumococcal Vaccines across all levels of the immunization supply chain in Iran, identify the root causes of wastage, and recommend strategies for minimizing wastage rates.(Contract with WHO)	2025

2.	Preparedness Plan for Future Pandemic (X)	2025
3.	Providing consultation on the design and implementation of research projects and theses in the Clinical Research Development Unit of Imam Hossein Hospital, affiliated with Shahid Beheshti University of Medical Sciences in 2023	2025
4.	Investigation of strategies for early diagnosis of Crimean-Congo hemorrhagic fever outbreaks using A cross-sectional review	2025
5.	Effect of gluten-free diet and related factors on recovery of celiac disease stage 1 patients and estimation of chronic outcomes in patients over 35 years of age residing in Zahedan city in 2024 using survival analysis	2025
6.	Explanation of educational, cultural, and socio-economic problems and barriers of medical residents and providing appropriate solutions	2025
7.	Launching a registration system for children with chemotherapy-induced peripheral neuropathy at Mofid Children's Hospital	2025
8.	Implementing the Research Methodology Consultant Program in the Clinical Research Development Unit of Imam Hossein Hospital, affiliated with Shahid Beheshti University of Medical Sciences in 2022	2024
9.	Providing a geographical map of the incidence of deaths due to measles in the provinces and cities of the country during the years 2006 to 2022	2024
10.	Evaluating the eFAST online video training for medical students	2024
11.	Estimating the population susceptible to measles at the national and city levels in Iran using disease transmission dynamics models	2024
12.	Investigating the lethality of the oncolytic virus T-VEC in human melanoma	2024
13.	Investigating the effect of the pentavalent vaccine in preventing the occurrence of meningitis using discontinuous time series analysis in Iran from 2008 to 2023	2024
14.	Investigating the effectiveness of the drug duloxetine in improving the symptoms of polyneuropathy caused by vincristine chemotherapy in children with cancer in the hospital Mofid in 2024	2024
15.	Investigation of the relationship between insulin resistance and disease activity in patients with rheumatoid arthritis and systemic lupus erythematosus referred to Imam Hussein Hospital	2024
16.	Investigation of the diagnostic and prognostic value of blood biomarker UCH-L1 in patients with traumatic brain injury	2024
17.	Investigation of clinical outcomes of laparoscopic colorectal cancer surgeries in Imam Hussein Hospital (AS) in 2021-2025	2024
18.	Investigation of childhood predictors on the incidence of hypertension in adulthood using prediction models: Tehran Glucose and Lipid Study	2024
19.	Investigation of the effect of air pollutants on ovarian reserve factors in patients referred to the infertility clinic of Taleghani Hospital, Shahid Beheshti University of Medical Sciences in 2024	2024
20.	Investigation of initial patient manifestations, pathology results, outcomes of laparoscopic colorectal surgery and patient survival in the last ten years in Imam Hussein (AS) disease in Tehran	2024
21.	Investigating factors associated with mortality or injury from traffic accidents at the national and international levels: a systematic review and meta-analysis	2024

22.	Investigating the status of utilization of diabetes and hypertension care services and its associated factors in the Tehran metropolitan area and preparing a health service delivery package	2024
23.	Study of clinical and endoscopic findings related to chronic gastrointestinal complications following ingestion of caustic substances in children	2024
24.	Bibliometric analysis of articles published in cardiology journals with Scopus index	2024
25.	Bibliometric analysis of articles published in emergency medicine journals with Scopus index	2024
26.	Analysis of the trend of annual incidence of burn deaths in Iran and its distribution from 2005 to 2022	2024
27.	Spatio-temporal analysis of thyroid cancer incidence using spatio-temporal weighted regression	2024
28.	Cost-effectiveness analysis of HPV vaccination in preventing cervical cancer in Iran	2024
29.	Determination of factors affecting divorce in Iran from 2011 to 2023: A systematic review and Meta-analysis	2024
30.	Design and validation of specific prediction models for microvascular, macrovascular complications, and death in patients with type 2 diabetes	2024
31.	Report of a patient with severe short stature and microcephaly with a novel genetic mutation in an Iranian family	2024
32.	Study of blood lead levels and related outcomes among workers of an Iraqi oil company and residents of its area: A case study in Kirkuk city, 2023	2024
33.	Comparison of the effects of sevoflurane and isoflurane during liver transplantation on the cardiac, hepatic and renal status of the patient after transplantation	2024
34.	Integrated HIV Subaccounts and National AIDS Spending Assessment in the Islamic Republic of Iran (2023) – UNAIDS	2023
35.	Risk, Mortality, and Prognosis of COVID-19, RFP-Based Proposal	2023
36.	Comparison of knee replacement by bi-unicondylar arthroplasty and total knee arthroplasty (TKA): A randomized clinical trial	2023
37.	Effect of interferon in the treatment of COVID-19: A clinical trial study	2023
38.	Evaluation of the role of the length of the hyperdense signal in the middle cerebral artery on the three-month disability rate of patients with arterial ischemic stroke with evidence of large vessel involvement based on the modified rating scale (mRS) who underwent mechanical thrombectomy at Imam Hussein (AS) Medical Center.	2023
39.	Study of the effectiveness of risdiplam compared to spernez on motor function in patients with spinal muscular atrophy (SMA)	2023
40.	Investigation of the combined effect of ketamine and magnesium sulfate on the frequency of cluster headache resistant to common medications in patients referred to Imam Hussein Hospital in 2023	2023
41.	Study of the effect of cotrimoxazole on the recovery of patients with idiopathic granulomatous mastitis referred to Imam Hossein Hospital in 2022 and 2023 compared to historical controls	2023
42.	Study of the effect of melatonin and agomelatine on sleep problems in children and adolescents with autism spectrum disorder	2023

43.	Study of the effectiveness of metformin prophylaxis in preventing risperidone-induced hyperprolactinemia in children and adolescents: a randomized double-blind trial	2023
44.	Study of the effectiveness of duloxetine in improving the symptoms of polyneuropathy caused by vincristine chemotherapy in children with cancer at Mofid Hospital in 2023	2023
45.	Study of the early effect of hypertonic dextrose on the pain and movement status of patients with chronic knee osteoarthritis compared to corticosteroids	2023
46.	Study of the relationship of some climatic variables with the incidence of stomach cancer and identification of low-risk and high-risk clusters in Iran during 2014-2018	2023
47.	Study of some group factors associated with the incidence of suicide leading to death in Iran during 2009 To 2022	2023
48.	Investigation of the effect of intra-knee clindamycin injection in DJD patients in reducing the rate of postoperative infection as a double-blind randomized clinical trial	2023
49.	Investigation of the range of Category Fluency Test scores in healthy elderly people, those with mild cognitive impairment and Alzheimer's in Yadman Clinic, Iran	2023
50.	Investigation of the trend of treatment-resistant tuberculosis during 2023-1393 and its prediction in the coming years in Iran	2023
51.	Investigation of factors predicting lymphedema in Iranian women with breast cancer after undergoing initial treatments	2023
52.	Investigation of factors associated with Crimean-Congo hemorrhagic fever in Dhi Qar province, Iraq, 2022 and development of a plan for early detection of future outbreaks	2023
53.	Investigation of factors associated with inadequate blood sugar control in patients with type 2 diabetes	2023
54.	Investigation of the comparison of the effect of lidocaine and ketamine with two simultaneous and separate infusion methods on neuromonitoring status in spinal surgeries	2023
55.	Investigation of the quality of bowel preparation for colonoscopy based on the Boston Bowel Preparation Scale	2023
56.	Nutritional and wound parameters Diabetic foot: A systematic review	2023
57.	Analysis of the incidence trend and identification of mortality foci due to carbon monoxide poisoning during 2012-2023 in Iran	2023
58.	A spatial-temporal analysis of divorce and marriage statistics during 2011-2020 in Iran	2023
59.	Determination of factors affecting infection leading to hospitalization following COVID-19 vaccination in Chaharmahal and Bakhtiari province: a case-control study	2023
60.	Development of a predictive model for suicidal thoughts and attempts among high school students in Wasit province, Iraq	2023
61.	Systematic review and meta-analysis of the effect of remdesivir and favipiravir on clinical outcomes of COVID-19	2023
62.	A pilot study of data registration of electrodiagnostic studies (electrodiagnosis)	2023

63.	A study of blood lead levels and related outcomes among workers of an Iraqi oil company and residents of its area: a case study in Kirkuk city, 2023	2023
64.	Cohort study investigating factors affecting the improvement of prediabetes in patients referred to the Endocrinology and Internal Medicine Clinic of Imam Hossein Hospital, Tehran	2023
65.	Comparing the performance of six existing classification tools and presenting a new model for predicting the improvement of diabetic foot ulcers in Iran	2023
66.	Results of the initial phase of the registration program for patients with spinal muscular atrophy (SMA)	2023
67.	Investigating the Re-Infection Rate in COVID-19 Patients (National Study)	2022
68.	Estimating Important Parameters Related to the COVID-19 Epidemic in Iran: Data-Driven Analysis	2022
69.	Efficacy, safety, and cardiovascular and other complications of COVID-19 vaccination in pregnant women: a rapid review	2022
70.	Efficacy of the COVID-19 vaccine booster dose using a network meta-analysis	2022
71.	Evaluating the serological response to the COVID-19 vaccine booster dose (homogeneous versus heterogeneous) in patients receiving autologous hematopoietic stem cell transplantation	2022
72.	Evaluating the level of anxiety, depression, and treatment adherence in patients with epilepsy after an educational intervention regarding sudden deaths due to epilepsy	2022
73.	Estimating the underestimation of cancer registration in Iran - updating pathology-based statistics to population-based	2022
74.	FAST-HUG study and its association with ICU mortality over a 3-month period in Imam Hossein Teaching and Medical Hospital Hossein (AS) Tehran	2022
75.	Investigating the effect of the COVID-19 pandemic on the trend of suicides in 2020 compared to the previous decade using a discontinuous time series method	2022
76.	Investigating the relationship between the air quality index and meteorological parameters on the mortality rate from COVID-19 in Iranian metropolitan cities	2022
77.	Investigating the temporal relationship of multiple sclerosis relapses with different seasons	2022
78.	Investigating the relationship of choroid detachment complication on the failure of Ahmed shunt surgery using the coarsened exact matching method	2022
79.	Investigating the relationship of demographic characteristics, radiological and clinical findings with hospital mortality in patients with non-traumatic subarachnoid hemorrhage admitted to Imam Hossein (AS) Hospital	2022
80.	Investigating the effect of stretching and resistance exercises on pain and strength of thenar muscles in patients with carpal tunnel syndrome	2022
81.	Investigating the effect of tympanostomy surgery (placing a ventilation tube) in children with recurrent acute otitis media (rAOM) - a meta-analysis study	2022
82.	Investigating the relationship of family members' addiction in women's suicide attempts 15-65 years old, Golestan Province	2022
83.	A study of the 15-year trend of deaths from traffic accidents in Iran between 2006-2021	2022
84.	A systematic review and meta-analysis of the incidence and risk of stomach cancer in patients with type 2 diabetes	2022

85.	A study of the prevalence and risk factors of non-alcoholic fatty liver disease in patients with inflammatory bowel disease	2022
86.	Study of the predictive power of the change in the blood factor lactate dehydrogenase (LDH) in the course of the disease in patients with severe COVID-19 hospitalized in Taleghani Hospital in 2011	2022
87.	A comparative study of the analgesic effects of ultrasound-guided erector spinae block with direct injection under the erector spinae muscles in degenerative surgeries of the lumbar spine	2022
88.	A study of the level of 5-hydroxyindoleacetic acid in perforated and non-perforated appendicitis patients between December 2011 and June 2012 in Imam Hussein Hospital	2022
89.	A study of the mortality rate from drug and psychotropic drug use in 2011 and its comparison with the trend of the previous 5 years using data from the Forensic Medicine Organization	2022
90.	The effect of using an immediate prosthesis after surgery on the degree of gait symmetry and the ability to adapt to the step in lower limb amputees compared to the traditional method	2022
91.	The effect of lactated Ringer's serum as a base solution in modified del Nido cardioplegia compared to Plasmid-based del nido cardioplegia on myocardial protection and clinical factors in patients with coronary artery bypass grafting in Imam Hussein Hospital	2022
92.	Determination of knee bone union in high-tibial osteotomy (HTO) using medial open wedge method with and without graft	2022
93.	Data fusion and machine learning techniques to predict the risk of intensive care unit (ICU) admission and death risk from COVID-19 based on clinical data	2022
94.	Time-dependent confounders in the association between general and central obesity with coronary heart disease: a longitudinal, targeted maximum likelihood estimation in the study of atherosclerosis risk factors	2022
95.	Prediction models for colorectal cancer diagnosis: a structured review	2022
96.	Comparison of the effects of daily and every other day ferrous glycine sulfate treatment in women with iron deficiency anemia	2022
97.	Comparison of the 15-year trend in mortality from 2006-2021	2022
98.	Comparison of the diagnostic accuracy and power of FNA and frozen section in Comparison with the result of Permanent pathology after surgery in thyroid nodules	2022
99.	Comparison of one-year results of total knee replacement surgery using two methods: Kinematic Alignment and Mechanical Alignment in patients of Imam Hussein Hospital (AS) in 2022	2022
100.	Relationship between serum vitamin D levels and severity of ischemic stroke: A systematic review and meta-analysis	2021
101.	Evaluation of the safety of human matched placental mesenchymal stem cell transplantation in patients with critical limb ischemia (CLI): Phase I clinical trial	2021
102.	Investigation of the coagulation effects of tranexamic acid on the bleeding rate of patients undergoing surgery for supratentorial brain tumors	2021
103.	Study of the health effects of the scenario of replacing worn-out cars and motorcycles and equipping buses with soot filters based on the Clean Air Law in Tehran using WHO AIR Q+ software	2021

104.	Investigation of 5, 3, 1 and 7-year survival and its associated factors in patients with myocardial infarction hospitalized in Iran in 2013	2021
105.	Investigation of the effect of a self-help program based on occupational therapy for parents on executive function and symptom severity of children with attention deficit hyperactivity disorder	2021
106.	Investigation of the relationship between maternal drug addiction and neonatal complications at birth	2021
107.	Investigation of long-term and short-term adverse effects after vaccination with COVID-19 vaccines in members of the Iranian Medical System Organization	2021
108.	Investigation of factors associated with treatment adherence in people covered by the IRAPEN program to reduce the risk of cardiovascular diseases in primary health care	2021
109.	Investigation of factors associated with infections acquired from the intensive care unit in Iran	2021
110.	Investigation of the diagnostic power of endosonography (EUS) compared with endoscopic retrograde cholangiopancreatography as the gold standard (ERCP) in the diagnosis of common duct stones Saffari	2021
111.	A comparative study of the satisfaction rate of patients with proximal humerus fractures treated with the deltoid splitting surgical approach with the deltopectoral method in Imam Hossein Hospital, Tehran, in the years 2020-21	2021
112.	A study and prioritization of heart diseases and diagnostic, therapeutic and pharmacological measures for the prevention and treatment of these diseases based on epidemiological and health economics indicators in Iran	2021
113.	A study of demographic characteristics and clinical histories of patients with colorectal neoplasia: a descriptive study based on colonoscopy results	2021
114.	Monitoring and evaluation of interventions carried out regarding Covid-19 in Iran from February 2019 to March 2020	2021
115.	Profile and results of the initial phase of the registration program for patients with spinal muscular atrophy	2021
116.	Predicting the risk of deep vein thrombosis in hospitalized Covid-19 patients	2021
117.	Quality assurance and control of disease registration programs at Shahid Beheshti University of Medical Sciences in the year 2021	2021
118.	Determining and comparing the effectiveness of protocols Infection prevention (antibiotics Lac and Trulac) in reducing central venous catheter-related infections in hemodialysis patients	2021
119.	Determining the status of health, safety and environmental indicators in nursing homes in 22 districts of Tehran Municipality	2021
120.	National registry of coronary angiography and angioplasty cases	2021
121.	Epidemiological characteristics of cases with reinfection, rehospitalization and relapse due to COVID-19, a systematic review and meta-analysis	2021
122.	Psychometrics of the IBD-Fatigue questionnaire and the relationship between dietary pattern and fatigue in inflammatory bowel disease patients: a cross-sectional study	2021
123.	Prevalence of spousal abuse and its associated factors in married women in Tehran	2021
124.	Risk factors for physical, sexual and psychological violence against women	2021

125.	Introducing a predictive model for infection after open fracture reduction (ORIF) surgery considering the NHSN/SIR model: a case-control study	2021
126.	Comparing the frequency of cardiovascular disease risk factors in the IraPEN pilot study with data from the National Survey of Noncommunicable Disease Risk Factors in 2016	2021
127.	Comparing the functional outcomes of anterior cruciate ligament (ACL) reconstruction with two arthroscopic hamstring surgery methods with and without internal bracing	2021
128.	Presenting a predictive model for suicide attempts in the 15-65 year old population of Golestan province in 2019	2020
129.	Evaluating the accuracy of reporting by drug victims' families regarding alcohol and morphine-codeine consumption and comparing it with autopsy and laboratory results in drug-induced deaths	2020
130.	Estimating the direct effect of body mass index on the cumulative incidence of cardiovascular disease and all-cause mortality by controlling for waist circumference using the robust double method	2020
131.	Evaluating the effectiveness of pharmacological interventions used in the improvement and treatment of COVID-19: a study A review with network meta-analysis	2020
132.	Investigating the effect of simultaneous exposure to air pollutants and high temperature on daily mortality in Mashhad city from 2014 to 2018	2020
133.	Investigating the effects of levothyroxine treatment on lipid profile and thyroid tests in adults with subclinical hypothyroidism referred to Imam Hussein (AS) Hospital.	2020
134.	Investigating the relationship between fine particulate matter (PM2.5) and changes in the exceptionally elderly population rate in Iran	2020
135.	Investigating the impact of implementing/not implementing the traffic and air quality plan in Tehran on the spread of the COVID-19 epidemic	2020
136.	Investigating the presence of the novel coronavirus (SARS-CoV-2) in the air of public places and means of transportation in Tehran after establishing a social distancing plan and determining high-risk areas	2020
137.	Investigating the trend in the death rate from traffic accidents in Iran during 2006 to 2018	2020
138.	Investigating the short-term and long-term survival rate in patients with myocardial infarction according to the type of drugs prescribed at the time of discharge from the hospital in 2014-2015: based on data available in the Iranian National Registry System	2020
139.	Investigating the level of agreement between laboratory findings and verbal self-declaration of relatives of deceased persons due to complications of drug and psychotropic drug use referred to the Forensic Medicine Organization	2020
140.	Investigating and correcting the undercounting of cancer registration data in Iran from 2005 to 2013 and predicting cancer incidence by 2018 1406 Using Bayesian Age Cohort Model	2020
141.	Prediction of Common Bile Duct Stones by Clinical History, Blood Biochemistry, and Ultrasound Variables	2020
142.	Spatial analysis of the incidence of deaths due to substance abuse among provinces and cities of Iran during the years 2013-2017	2020

143.	Determining the diagnostic value of serological antibody tests available in Iran for the diagnosis of COVID-19 infection for use in seroepidemiological studies	2020
144.	What criteria were examined in COVID-19 patients? Systematic review and meta-analysis of clinical symptoms, laboratory findings and imaging with a focus on cardiovascular criteria	2020
145.	Decomposition of gender, regional (urban/rural) and socio-economic inequalities in cardiovascular disease risk in Iran	2020
146.	Psychometric evaluation of the Violence Against Women Questionnaire and its application to determine the prevalence of spousal abuse and its associated factors in Tehran	2020
147.	Design of a non-alcoholic fatty liver disease (NAFLD) registration program	2020
148.	Design of a competency development model for health managers of the Ministry of Health, Treatment and Medical Education	2020
149.	Prevalence of self-monitoring of blood glucose in children and adolescents with type 1 diabetes and some factors affecting it	2020
150.	Systematic review and meta-analysis of baseline, interval serial, mortality, case fatality rate and some parameters of the novel coronavirus (COVID-19) epidemic	2020
151.	Systematic review of biomonitoring studies on the exposure of individuals to some selected environmental pollutants in Iran	2020
152.	Standardizing the Rate of Hospital-Acquired Infections Using Forecasting Models in Iran in 2019	2019
153.	Estimating the causal effect of obesity on the cumulative incidence of cardiac outcomes Vascular Disease Using the Robust Double Method	2019
154.	Estimating the Causal Effect of Obesity Indicators on the Cumulative Incidence of Cardiovascular Diseases Using the Robust Double Method and Comparison with Routine Methods	2019
155.	Estimating the Number of Years of Life Lost Attributable to PM2.5 Particles in the Air of 26 Iranian Cities in 2016-2018	2019
156.	Estimating the Basic Reproductive Number (R0) of the Novel Coronavirus (COVID-19) in the First Phase of the Pandemic in Iran and Tehran	2019
157.	Epidemiological Study of Pedestrian Mortality in Traffic Accidents in Iran Using Forensic Medicine Data in 2012	2019
158.	Epidemiological Study and Spatial Analysis of the Incidence of Successful Suicide in Iran, in 2013	2019
159.	Evaluating the Effect of Exposure to Outdoor Air Pollutants on the Estimated Ovarian Reserve Changes Based on Serum Anti-Mullerian Hormone Levels in Animal and Human Studies	2019
160.	Evaluating the Relationship Between Air Pollution and Ovarian Reserve Changes Based on Serum Anti-Mullerian Hormone Levels in Women 20 Up to 50 years	2019
161.	Investigating the relationship between exposure to outdoor air pollutants and mortality from acute respiratory diseases in Tehran	2019
162.	Investigating the relationship between exposure to black carbon (BC) and mortality from acute respiratory and cardiovascular diseases in Tehran from 2014 to 2018	2019

163.	Investigating the relationship between the location of stroke and the death of patients with myocardial infarction admitted to the CCU of hospitals in the country from 2012 to 2019	2019
164.	Investigating suicide attempts in Iran from 2015 to 2019	2019
165.	Investigating the outcome of patients with acute opioid poisoning, under oral probiotics, admitted to the ICU of the poisoned in Loghman Hospital during 2019	2019
166.	Investigating the effect of environmental factors on blood pressure in the elderly	2019
167.	Investigating the temporal analysis of the incidence of successful suicide in Iran from 2014 to 2019	2019
168.	Investigating changes in the immune system in HIV-infected people treated with antiretroviral drugs using a Markov model	2019
169.	Investigating the trend in the mortality rate from drowning among Provinces of the country between 2012-2017	2019
170.	Investigating the trend and share of deaths from heavy vehicle accidents among all traffic accidents between 2006-2017	2019
171.	Investigation of factors associated with pedestrian deaths in traffic accidents in Tehran and Alborz provinces using police and forensic data in 2013	2019
172.	Investigation of the incidence of deaths from type 2 traffic accidents and non-traffic accidents in Iran during 2017-2018	2019
173.	Investigation of the epidemiological characteristics of COVID-19 disease: a review study	2019
174.	Interaction between airborne particulate matter (PM2.5-PM10) and polymorphisms of ARAP1, DUSP8, KCNJ11, MTNR1B and KCNQ1 genes on the incidence of type 2 diabetes in the adult population of the Tehran Lipid and Glucose Study (TLGS)	2019
175.	Application of a predictive model to standardize the rate of surgical site infection following orthopedic surgeries in teaching hospitals in Tehran.	2019
176.	Predicting the consequences of acute tramadol poisoning for clinical decision-making	2019
177.	How air pollution and climate variables affect mortality in the elderly	2019
178.	Launching an ERCP (Endoscopic Retrograde CholangioPancreatography) registration system	2019
179.	Launching an pancreatic cancer registration system	2019
180.	Launching an colon cancer registration system	2019
181.	Designing a predictive model for colorectal neoplasia based on clinical and laboratory findings in patients eligible for colonoscopy.	2019
182.	Systematic review of literature on economic evaluation methods in disaster risk management in the world and Iran	2019
183.	Systematic review of literature on community-based disaster management in Iran and the world	2019
184.	Review and compilation of the latest scientific and educational statistics and evidence on COVID-19	2019
185.	Exposure to outdoor air pollutants and the rate of changes in estimated ovarian reserves in female rats	2019

186.	Evaluation of the performance of the Bayesian outbreak detection algorithm in the influenza-like syndrome surveillance system	2018
187.	Standardization of the rate of hospital-acquired infections using predictive models in Iran in 2017	2018
188.	Investigation of the effectiveness of relaxation exercises in reducing depression, anxiety, and stress in elderly people with type 2 diabetes covered by comprehensive health service centers in the outskirts of Isfahan in 2017	2018
189.	Investigation of the incidence of gestational diabetes and the dose-response relationship of body mass index (BMI) with it in pregnant women in Kermanshah	2018
190.	Study of quality of life and factors affecting it in patients with thalassemia major	2018
191.	Investigation of changes in risk factors for cardiovascular diseases after the implementation of the IRAPEN program in a pilot study	2018
192.	Investigation of treatment adherence and factors affecting it in patients with thalassemia major	2018
193.	Investigation of inequality in the outcome of death following traffic accidents and its trend among the provinces and cities of Iran between 2015 and 2016.	2018
194.	Investigation of the status of methadone use based on toxicology tests in those who died due to drug use between 2013 and 2014	2018
195.	Analysis of the trend of the incidence of suicide using piecewise linear regression in Iran during 2016 and 2016	2018
196.	Determination of treatment adherence in people covered by the IRAPEN program to reduce the risk of cardiovascular diseases in primary health care: a pilot study	2018
197.	Meta-analysis of randomized controlled trials on the effect of saffron consumption on Fasting blood sugar and hemoglobin A1C	2018
198.	A dose-response meta-analysis of cohort studies on the relationship between fatty liver index (FLI) and diabetes incidence	2018
199.	Calculation of the burden of mortality due to drug abuse in cadavers referred to forensic medicine in Iran in 2013-2015	2018
200.	Estimating the number of deaths of children under 5 years of age due to acute lower respiratory tract disease attributed to air pollution in selected cities in 2015-2017 using the AirQPlus model	2017
201.	Estimating the effect of metabolic syndrome and its components on the incidence of coronary heart disease using competing risk modeling in the presence of time-dependent variables	2017
202.	Investigating the relationship between short-term exposure to air pollutants and the incidence of acute respiratory and cardiovascular diseases in Tehran province from 2014 to 2017	2017
203.	Investigating the distribution of complications, survival status and factors affecting them in patients with beta-thalassemia major in specific regions of Iran	2017
204.	Investigating the rate of change in cognitive test results after multiple sclerosis surgery Medial temporal lobe	2017
205.	Quantification of health effects of air pollutants in selected cities of the country in 2016 using the AirQ+ model	2017

206.	Disparity in mortality and injuries from traffic accidents between economic classes of cars in Iran in 2015 and its analysis into influential factors	2017
207.	Investigation of 28-day, six-month and one-year survival rates following myocardial infarction and its related factors in patients referred to the hospital in 2013 in Iran	2016
208.	Investigation of the effect of education of spouses of pregnant mothers via short text messages on the awareness, attitude and delivery method of pregnant mothers referred to the health centers of the National Tehran Oil Company in 2015	2016
209.	Investigation of the effect of hypothetical health-related lifestyle interventions on the cumulative incidence of stroke using parametric g-formula	2015
210.	Investigation of the effect of oral midodrine on the need for vasopressors in ICU patients	2015
211.	Quantification and comparison of health effects of air pollution in the cities of Tehran, Shiraz, Ahvaz, Isfahan, Arak, Tabriz, Mashhad, Ilam provinces in 2013-2014 and providing a solution to reduce health consequences	2015
212.	Comparison of the effects of devil's claw root and glucosamine sulfate in the treatment of symptoms of knee osteoarthritis	2015

1. Reviews:

1. Review of more than 400 research proposals for students
2. Several Persian papers for the Scientific Journal of Forensic Medicine
3. Numerous Persian papers for the Journal of Safety Promotion and Injury Prevention
4. Several English papers for the Endocrine and Metabolism Journal
5. Multiple projects and articles for the Razi Festival
6. Regular contributions of English and Persian papers to various Journals

Skills and Qualifications

1. Proficient in statistical software such as Stata, SPSS, and R
2. Advanced knowledge of Microsoft Office, ICDL Skills, Web, and HTML
3. Experienced in using graphical software like Photoshop
4. Fluent in English, with FCE (First Certificate in English) from Cambridge University, IELTS Exam Score: 7, and MCHE exam Score: 81
5. Familiarity with German and French languages
6. Certificate of Prevention of sexual exploitation and abuse (PSEA) by UNICEF
7. Certificate of ethics at UNAIDS
